

OUR CARE FOR PEOPLE & NATURE

2028

PEOPLE

People well-being

Drive improvement of working conditions and enable access to water, sanitation and hygiene together with our growers

NATURE

Water

Enable responsible water management in our sourcing areas

Biodiversity

Enable conservation of biodiversity in our sourcing areas

Climate

Reduce absolute scope 1, 2, 3 and Forest, Land & Agriculture emissions in line with 1,5 °C

Contributes by developing scalable solutions

Our care for people & nature is in line with the UN Sustainable Development Goals
